Innovative

The core of the anti-bedsore mattress, made of high-performance memory shape foam, enables a better repartition of pressure points which could prevent bedsores, discomfort and significantly reduce animal's pain.

Comfortable

VetCare conforms to the animal’s morphology and weight.

Resistant

VetCare is made of a P.V.C. coated polyester cover, reinforced with textile fiber in order to resist animal bites. A wide peripheral welding, including a stainless steel eyelet in each corner, reinforces it.

Hygienic

VetCare can be easily cleaned with water and soap.

Dimensions: 30'' x 42'' (77 x 106 cm) - Thickness 1.8'' (45 mm)
